AWARDED MEDAL OF HONOUR OF THE TORONTO CHAPTER, O.A.A. 1922.

GEORGE, MOORHOUSE AND KING, ARCHITECTS

The Medal of Honour is awarded for excellence in design entirely on the exhibit as represented by the photograph and without regard to plan or cost. In other words, a perfectly beautiful doorway or mantel may win the Medal of Honour in competition with a fine but inferior monumental building.

FOREWORD

IN presenting this, the third Exhibition of Architecture and Allied Arts to the public, the Toronto Chapter of the Ontario Association of Architects wishes once more to thank the Art Gallery for its courtesy and assistance in assembling and presenting the Exhibition.

The object of this association of Architecture with the Allied Arts is three-fold. First, to call attention to the general standard of design and craftsmanship existing in Canada to-day; second, to develop the possibilities of co-operation between the various branches of the Allied Arts among themselves and with Architecture—and third, to increase the interest of those who support these Arts by their patronage in the development of local craftsmanship and design to the furtherance of a distinctive development of style in Canada.

Wishing to stimulate the growing interest in the early architecture of Ontario, we are showing a model of a composite early Ontario village and pieces of authentic Canadian furniture.

Over five hundred photographs have been taken and measured drawings made of over fifty buildings under the guidance of Professor E. R. Arthur of the School of Architecture, University of Toronto, as a matter of record and for future reference.
